

Menu-bar glance — Liquid Glass panel hangs from the bar.

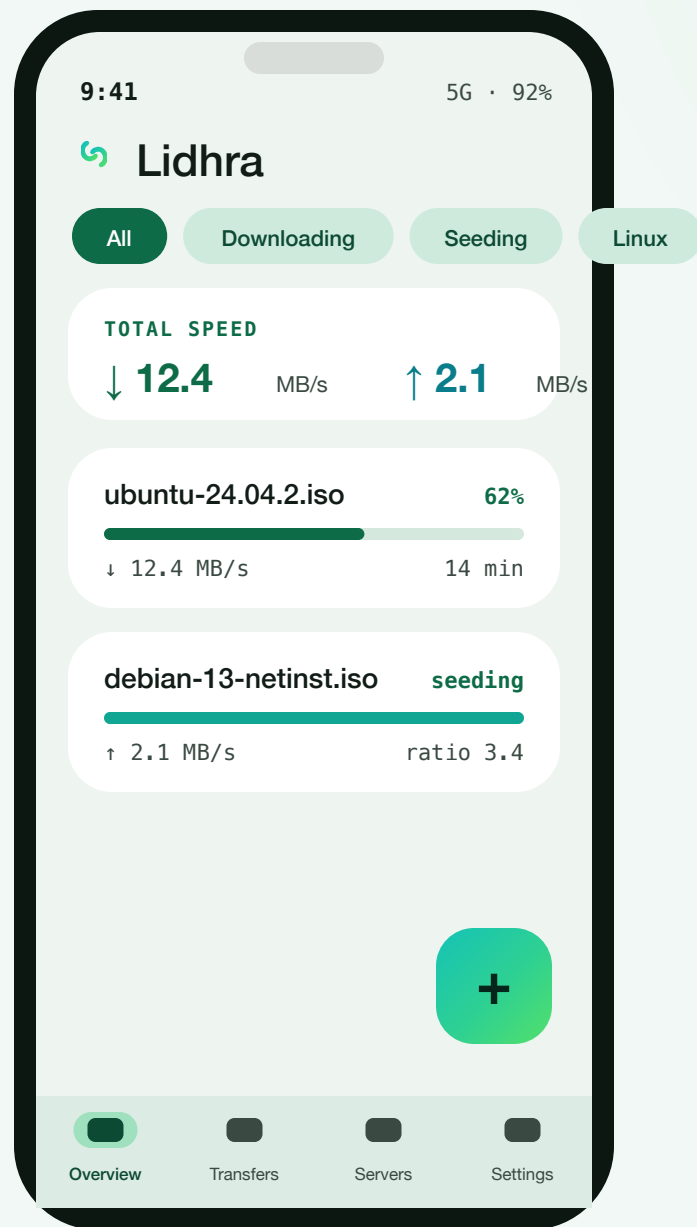

Full window — native sidebar, traffic lights, one health-bar per item.

iOS — installable PWA remote (App-Store-safe). Floating Liquid-Glass tab bar.

watchOS glance — the wrist is the fastest surface.

Full client — Play Store permits it

Google Play allows both full clients and remotes. Lidhra Android is a Tauri Mobile app that can run the engine locally OR act as a remote for a desktop / Pi — a toggle in setup. Same Material UI either way.

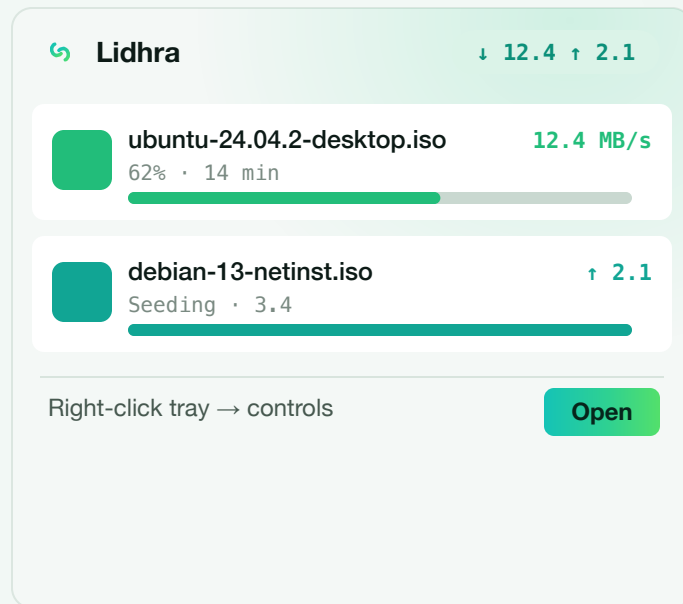

Material 3

Dynamic color

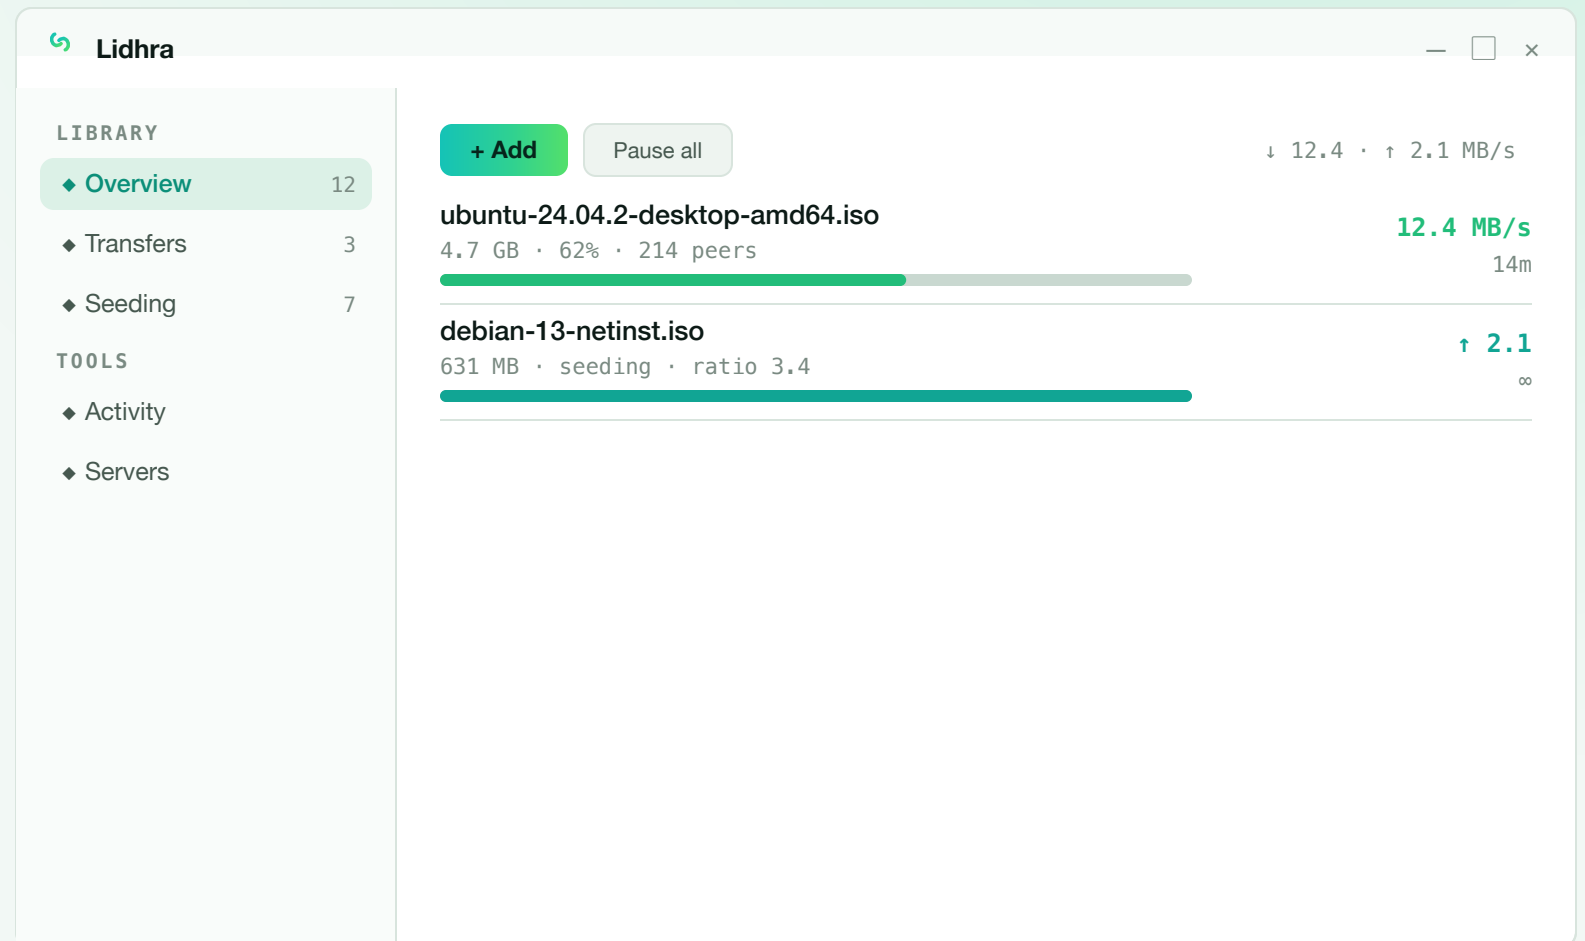

Foreground service

Tauri Mobile

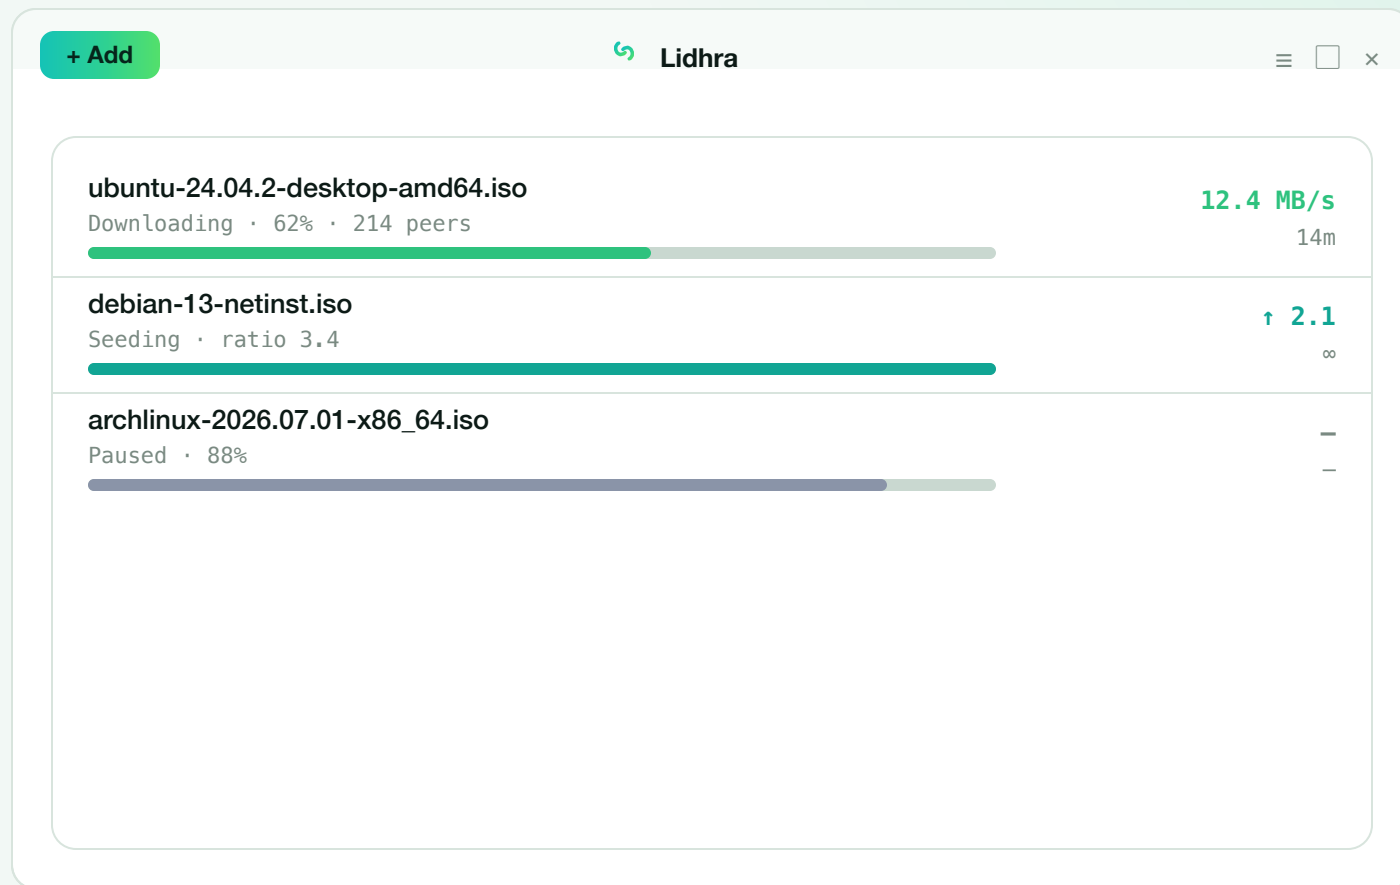

Android — Material 3 (Material You). Brand-green tonal palette, chips, FAB, nav bar.

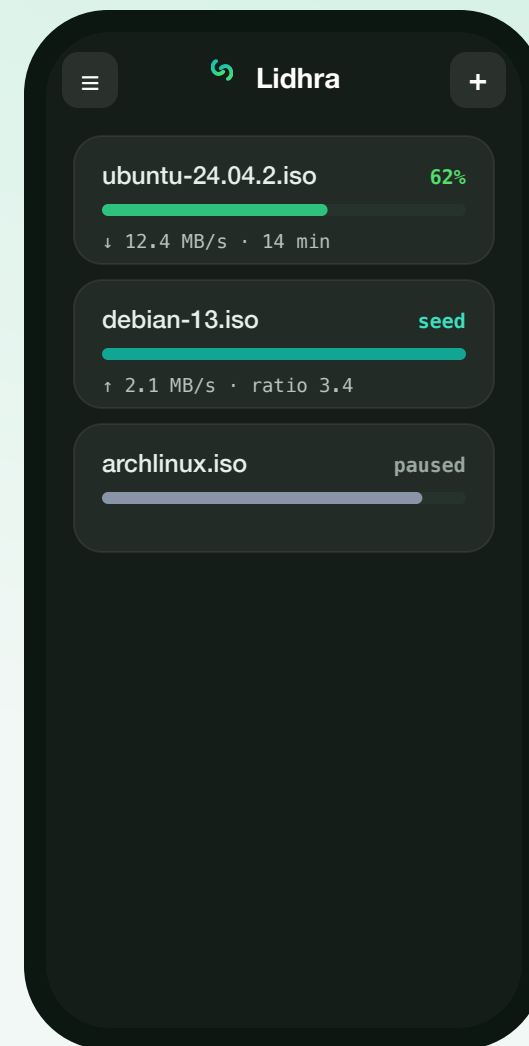

System-tray flyout — Fluent Acrylic, rounded, above the clock.

Mica-backed window, Fluent controls, native min / max / close.

GNOME / libadwaita — header-bar actions, boxed-list rows, green accent (#2EC27E).

Linux mobile (phosh) — the same libadwaita view, adaptively collapsed.
